Modified Short Course Title:

5. What is the primary reason you are modifying this course?
We would like to change the prerequisite of MTH 138 or concurrent enrollment to requiring MTH 138 prior to enrolling in CHE 133. The pass rate in CHE 133 is affected by poor math skills and students not being prepared to attempt a rigorous course such general chemistry during their first semester of college. Students will have a better chance of being successful in general chemistry if they have the opportunity to grasp MTH 138 without the added burden of attempting CHE 133 at the same time during their first semester of college.
