If so, list the prerequisites, the number of credit hours, and an explanation

Course	Prerequisite for	Explanation

Detail the planned changes below:

We have proposed a change to CSC 201 from Introduction to Computer Programming to Introduction to Information Technology. If this course change is accepted, we wish to change the required course for ITEC majors from CSC 202 to CSC 201, and to change the ITEC minor requirements to allow either CSC 202 or CSC 201.

Discuss the rationale for the proposed changes:

The CSC 201 course will better serve our Information Technology majors and minors. It has specifically been redesigned to address the needs of our IT students and will provide the needed coverage that is not being addressed in the CSC 202 course (which was specifically designed for our Computer Science and Computer Information Systems majors).

How would the planned change affect students and/or other departments/disciplines?

The change will not affects students and/or other departments/disciplines.
