Summer Math and Science Highlights Camp is for incoming SFA freshmen who plan to major in math and science. SMASH Camp reiterates math and science concepts, introduces students to the SFA campus and its resources, and allows students to meet peers who are also interested in pursuing a STEM-related field. Students reside on campus, eat in the cafeteria, collaborate with college professors in classroom and laboratory settings, and develop long-lasting friendships. If you have an interest in biology, chemistry, math, biochemistry, nursing, physical therapy, engineering, pre-med, wildlife or environmental science, you are encouraged to attend.

REGISTER TODAY at cosm.sfasu.edu/stem/smash-camp or contact the SFA STEM Research & Learning Center at (936) 468-5814 or stemcenter@sfasu.edu.
